

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Friday - 27 July 1962

25X1 1. [ ] John Buckley, Administrative Assistant  
to Representative Dante B. Fascell (D., Fla.), called and said that

25X1 [ ] is "having a problem"  
which somehow [ ] Buckley asked if we would have someone  
get in touch with him and straighten the matter out. We will discuss  
this with [ ]

ILLEGIB

25X1 2. [ ] In Bill Darden's absence, left with Harry  
Wingate, on the staff of the Senate Armed Services Committee, the  
Director's letter containing follow up items on last month's briefing  
of the Committee. With respect to possible dates for the current  
briefing, I advised Wingate that August 1 and 3 were possibilities  
although the Director had USIB meetings scheduled on those mornings  
and that the Director's calendar was presently upon on the morning of  
the 18th. I indicated to Wingate that the 18th was by far the best date  
from our standpoint.

25X1 3. [ ] Returned to the Senate Internal Security  
Subcommittee a copy of the transcript which was loaned to us of the  
25X1 testimony of [ ]

25X1 4. [ ] Returned to Representative Charles  
M. Teague (R., Calif.) the chart prepared for him by the Library of  
Congress of the organization of the Soviet space program with comments  
which had been provided by OSI. I also made the general observation  
to the Congressman that considering the fact that the Library of Congress  
had made the chart solely from information collected from unclassified  
sources and had undertaken the almost impossible task of superimposing  
the Communist Party apparatus over the government administration  
of the space program, they had done a pretty good job. Mr. Teague  
appreciated our review of the chart and commented that he was most  
anxious to become as completely informed as possible since as next ranking  
Democrat to the Chairman of the House Space Committee, he would be in  
line with the chairmanship if Congressman Miller should retire or be  
defeated.
